# Class: XII <br> Physics <br> For Hearing Impaired Students 

Time: $\mathbf{3} \mathbf{h r s}$
Theory : 70 Marks
Practical : 25 marks
IA : 05 Marks
Total : $\mathbf{1 0 0}$ Marks

## Structure of Question paper (Theory)

1. There will be one theory paper in which the student has to attempt 29 questions as per the directions given below:
2. Question No. 1 to 20 will be of two marks each. Out of these 5 questions are multiple choice questions, 5 are match the column, 5 are fill in the blanks with given options and 5 are true or false
3. Question no 21 to 26 will be of three marks each. Candidates have to attempt any 6 questions out of 12 questions.
4. Question no $27-29$ will be of four marks each. There will be $100 \%$ internal choice in each question.
5. Distribution of marks over different dimensions of the paper will be as follows.

| Learning <br> outcomes | Marks | Percentage of Marks |
| :--- | :--- | :--- |
| Knowledge | 47 | $67 \%$ |
| Understanding | 16 | $23 \%$ |
| Application | 07 | $10 \%$ |
| Total | 70 | $100 \%$ |

6. There will be approximate credit of $67 \%$ to objective type questions carrying 2 marks
a. (i) $17 \%$ to multiple choice questions
(ii) $17 \%$ to match the column
(iii) $17 \%$ to fill in the blanks with given options (iv) $16 \%$ to true or false type.
b. Approximately $23 \%$ credit is given to questions of very short answer type. These can be answered in 2 to 3 lines. Each question will be of 3 marks each.
c. Approximately $10 \%$ credit is given to questions of short answer type. Each question carry 4 marks. These question will be on the basis of pattern given below.
i. Similarities and differences
ii. Ask to give example
iii. Advantages and disadvantages
iv. Labelling or Draw the diagram
7. UNIT WISE DISTRIBUTION OF MARKS

| Unit No. | Title | Marks |
| :--- | :--- | :---: |
| UNIT-I | Electrostatics | 11 |
| UNIT-II | Current Electricity | 11 |
| UNIT-III | Magnetic effects of current and magnetism | 07 |
| UNIT-IV | Electromagnetic Induction \& current | 07 |
| UNIT-V | Electromagnetic waves | 07 |
| UNIT-VI | Optics | 13 |
| UNIT-VII | Dual nature of matter | 06 |
| UNIT-VIII | Atoms and Nuclei | 04 |
| UNIT-IX | Electronics devices | 04 |
|  | Total Marks | $\mathbf{7 0}$ |

## SCHEMATIC DISTRIBUTION OF MARKS

| UNIT | Title | 2 Mark <br> Question | 3 Marks <br> Question | 4 Marks <br> Question | Total <br> Marks |
| :---: | :--- | :---: | :---: | :---: | :---: |
| 1 | Electrostatic | 02 | $01, \mathrm{C}$ | 01 | 11 |
| 2 | Current Electricity | 02 | $01, \mathrm{C}$ | 01 | 11 |
| 3 |  <br> magnetism | 02 | $01, \mathrm{C}$ | C | 07 |
| 4 |  <br> Alternating current | 02 | 01 | C | 07 |
| 5 | Electromagnetic waves | 02 | 01 | - | 07 |
| 6 | Optics | 03 | 01 | 01 | 13 |
| 7 | Dual Nature of matter | 03 | C | - | 06 |
| 8 | Atoms \& Nuclei | 02 | C | - | 04 |
| 9 | Electronic devices | 02 | C | C | 04 |
| Total Questions | $\mathbf{2 0}$ | $\mathbf{0 6}$ | $\mathbf{2}$ | $\mathbf{2 9 + 9 C}$ |  |
| Total Marks | $\mathbf{4 0}$ | $\mathbf{1 8}$ | $\mathbf{1 2}$ | $\mathbf{7 0}$ |  |

## Note: C stands for choice question

## INSTRUCTION FOR PAPER SETTER

1. There will be one theory paper and student has to attempt 29 question as per the directions.
2. Question no 1 to 20 will be of 2 marks each. Paper setter should set the question paper as per the direction given above. Out of 20 objective type questions, 5 question should multiple choice, 5 question should be of match the following type, 5 questions fill in the blanks and 5 questions are true/false type.
3. Question no 21 to 26 will be of three marks each. Candidates have to attempt any 6 questions out of 12 questions.
4. Question no $27-29$ will be of four marks each. There will be $100 \%$ internal choice in each question.
